**Wheat Area, 1911–12.**—According to information supplied by farmers, the area sown with wheat for the present season is estimated at 2,798,930 acres, being an increase of 186,000 acres, confined almost exclusively to the Riverina and South-western slopes, or over 7 per cent. as compared with the year 1910. The area expected to be reserved for grain is estimated at 2,388,540 acres, or about 259,800 acres in advance of the figures for the previous year. Owing to unfavourable weather conditions which prevailed generally at the ploughing and sowing seasons, farmers did not cultivate so extensively as they had proposed. The area of virgin land brought under cultivation during 1911, is estimated as 226,000 acres, or 46,000 acres in excess of the previous season.

A detailed statement of the areas in the principal wheat-growing divisions of the State, will be found in Table No. 59.

**Oats Area, 1911–12.**—The total area sown with oats during the current season is estimated at 240,350 acres, of which 85,490 acres is expected to be reserved for grain, and 154,860 acres to be cut for hay and green food. These figures, compared with those of the previous year, indicate an increase of about 8,000 acres on the total area sown.

**Sheep Flocks, 1910.**—In spite of the unfavourable season, which was responsible for a reduction of over 600,000 sheep during the year, the total number of flocks has increased by 996, or slightly more than 4 per cent. Taking the various groups up to 10,000 sheep, the flocks have increased in number by 1,024 representing an addition of 649,738 sheep in the aggregate. The number of larger flocks continues to diminish, and during the year those consisting of over 10,000 sheep decreased by twenty-eight, with a corresponding decrease of nearly 1,300,000 sheep. Full particulars may be found on reference to table No. 58.

**Gold Production.**—The gold yield during August was 19,853 oz. crude, equal to 16,555 oz. fine, valued at £70,320. The value of gold produced during the eight months was £503,111, and showed a decrease of £37,162, as compared with the corresponding period of 1910.

**Prices.**—The general index number for August was higher than that of July, but slightly lower than for the corresponding month of last year. The index number for pastoral produce was 1,203, for metals 1,198, and for all articles 1,201. During the month, the prices of butter, wheat, greasy wool, leather, hides, and copper advanced; but flour, frozen beef, silver, coal, and tin declined in value; other articles remained at the same level as those ruling in July.

**Land Selections.**—During August 95 applications were made for 55,691 acres; and 45,589 acres, representing 82 blocks, were set apart for residential settlement. Since the beginning of the year, the number of applications has been 879, and the area applied for 573,312 acres. The original area set apart for residential settlement since the 1st January has been 389,398 acres, representing 513 blocks.

**Meteorology.**—During the month of August the rainfall was light to moderate. Over fully four-fifths of the State was below the average, more especially in parts of the Western Division, Riverina and the Southern highlands. The most favoured districts were the Central and North-western plains and coastal areas, where the totals recorded were generally in excess of the average.

The temperature, on the whole, was mild with occasional low readings.

**Vital Statistics—Sydney and Suburbs—August, 1911.**—The Births registered numbered 1,592, equal to 30·24 per 1,000 of population; of the total, 832 were males and 760 females. The rate is very satisfactory, being the highest for the month of August since the year 1889, and 10 per cent. above the average for the previous five years.

The total Deaths numbered 605, namely, 306 males and 299 females, equal to a rate of 11·52 per 1,000 of population, being below the average for the previous five years.

The Infantile mortality was 58 per 1,000 births. The rate is phenomenally light, being 17 per cent. below the average for the previous five years which, itself, is very low.
